## **UNIFORM CRIME REPORT**

---

ANNUAL REPORT  
JANUARY—DECEMBER 1986

---

COMPILED BY THE NORTH CAROLINA DEPARTMENT OF JUSTICE  
STATE BUREAU OF INVESTIGATION  
DIVISION OF CRIMINAL INFORMATION

A total of 1,100 copies of this public document were printed by the North Carolina Department of Justice, Division of Criminal Information, at a cost of \$13,121.00 or \$11.93 per copy. These figures include only the direct cost of reproduction. They do not include preparation, handling, or distribution costs.

### **PLEASE NOTE**

Figures used in this report are submitted voluntarily by law enforcement agencies throughout North Carolina. Individuals using these tabulations are cautioned against drawing conclusions by making direct comparisons between cities due to the existence of numerous factors which affect the amount and type of crime from place to place. Some of these factors are listed in this report. More valid use can be made of these figures by determining deviations from state averages and through comparisons with averages for cities in similar population groups. It is important to remember that crime is a social problem and, therefore, a concern of the entire community. The efforts of law enforcement are limited to factors within its control.

**ANNUAL REPORT — JANUARY-DECEMBER 1986**

## **PREFACE**

The index crimes for 1986 are up an overall 6.5 percent. The statistics also show that our state's law enforcement agencies have held the line against the rise in crime with an increase in the number of reported crimes cleared by arrest.

You can make a lot of comparisons and draw a lot of conclusions from the statistics, but the message I want to see come through the numbers is the importance of adequate local support for our county sheriffs' and local police departments.

Law enforcement is both a state and local responsibility.

Our North Carolina General Assembly has been very responsive to the needs of law enforcement at the state level. The legislature has responded to our requests for additional agents and equipment such as the Automated Fingerprint Identification System (AFIS), and they have provided us with important new legal tools such as our new RICO law.

The General Assembly also made it easier for local law enforcement agencies to attract and keep good officers by enacting a fair and equitable package of law enforcement retirement benefits.

When our city councils and county commissioners meet to draw up their law enforcement budgets, I hope they will consider the requests of their police chiefs and sheriffs in light of the increasing challenge that a rise in crime presents to their law enforcement officers.

**LACY H. THORNBURG**

Attorney General

## Law Enforcement Code of Ethics

**As a Law Enforcement Officer**, my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.

**I will** keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept secret unless revelation is necessary in the performance of my duty.

**I will** never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.

**I recognize** the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.

## FOREWORD

The Division of Criminal Information (DCI) was authorized as a service agency to North Carolina law enforcement and criminal justice agencies. Since 1973 law enforcement agencies throughout North Carolina have voluntarily submitted information on specific crimes committed in their areas of jurisdiction to the Division of Criminal Information. The information and statistics presented in this report are an assessment of those reports and represent an over view of the statewide problems associated with those crimes. The statistics are compiled from monthly reports submitted to the Division of Criminal Information during 1986. The Division of Criminal Information in turn, furnishes this data to the Federal Bureau of Investigation for tabulation of national crime figures and incorporation in their annual publication, *Crime in the United States*.

The Division of Criminal Information staff has verified the data in the publication for accuracy and completeness. The publication is printed with the hope that it will assist law enforcement administrator's in adjusting, if necessary, their priorities in the fight against crime. This report provides valuable information for other agencies, both public and private, which have an interest in the fight against crime. I hope this publication will prove useful in the attempt to curtail crime in North Carolina.

**Robert Morgan**  
***Director, SBI***

## DIVISION OF CRIMINAL INFORMATION

### UNIFORM CRIME REPORTING

#### STATEMENT OF POLICY FOR THE RELEASE OF UCR STATISTICAL INFORMATION

The following policy will be observed by the State Bureau of Investigation concerning the release of all crime data collected under the summary or incident Uniform Crime Reporting standard. Employees of the SBI shall not deviate from this policy without the express consent of the SBI Assistant Director for DCI or the SBI Director. All information to be released will originate from the SBI's Division of Criminal Information. For the purpose of this policy, **published data** is defined as the data which is provided and released in SBI approved publications such as *Crime in North Carolina* each year and **unpublished data** is defined as any other crime data collected which is not normally published in the annual publication *Crime in North Carolina* or data that will be published in a particular year's annual report but has not yet been released.

#### POLICY

##### PUBLISHED CRIME DATA:

1. The SBI/DCI will publish an annual report reflecting crime in North Carolina. This report will be distributed to the Governor, to members of the Legislature, to the Attorney General, to law enforcement agencies or to any agency or committee dedicated to law enforcement or criminal justice work.
2. Other organizations or persons who wish specific crime data may write or call SBI/DCI and who will be given the requested data free of charge. The SBI/DCI and its Advisory Policy Board have the authority to place a charge on the annual publication for non-law enforcement/criminal justice agencies to recover the cost of publishing the document.

##### UNPUBLISHED DATA:

1. All requests from non-criminal data contributors for unpublished crime data must submit their request in writing to the SBI Assistant Director for DCI and these requests will be honored upon his approval and the approval of the agency head (if the data requested identifies a specific agency).
2. Law enforcement agencies which contribute crime data will have their own data and other contributor's data available to them at all times for the purposes of crime prevention, crime pattern detection or other related needs in combating crime.

## **DEDICATION**

This book is dedicated to all law enforcement officers and in particular to those law enforcement officers who were feloniously killed while endeavoring to uphold the laws and serving the citizens of North Carolina in the interest of all mankind. The following man gave his life to this cause in 1986 on the date specified.

The following officer was killed accidentally in the line of duty

Deputy Danny R. Griffin  
Rowan County Sheriff's Department  
June 6, 1986

# SECTION ONE

## NORTH CAROLINA CRIME REPORTING PROGRAM

## HISTORICAL BACKGROUND\*

The North Carolina Uniform Crime Reporting Program is part of a voluntary national program of collecting crime counts initiated in 1930 by the Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP). That same year, the Federal Bureau of Investigation (FBI) was authorized by the Congress of the United States to serve as the national clearinghouse for statistical information on crime. Since that time, data based on uniform classifications and procedures of reporting have been obtained by the FBI from the Nation's law enforcement agencies.

In an effort to provide as complete a picture of crime as possible on a national level, the Committee on Uniform Crime Records of the IACP chose to obtain data on offenses that became known to police, since greater numbers of these data were available than in any other category of reportable crime information. A meaningful overview of crime was available through examination of seven offenses which were selected because of their seriousness, frequency of occurrence, and likelihood of being reported to police. These offenses, which now comprise the Crime Index, are murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in late 1978.

To provide nationwide uniformity in the reporting of data, standardized definitions were adopted for all offenses. This standardization was necessary to overcome the variation in definitions of criminal offenses throughout the country. Reporting agencies are required to submit their data in accordance with the Uniform Crime Reporting definition of offenses as set forth in Section 2 of this publication. Because of the variance in punishment for the same offenses in different state codes, there is no possibility in a program such as this to distinguish between felony or misdemeanor crimes.

Contributing agencies to the UCR Program are responsible for compiling and submitting their crime data in one of two means, either directly to the FBI or through state Programs such as the one established in North Carolina. Presently, 41 states have operational UCR Programs.

These state UCR Programs provide the advantages of increased coverage of law enforcement agencies; the provision of more direct and frequent service to law enforcement agencies in assuring completeness and quality of information provided by them; and through coordination by the state data collection agency, more readily available information for use at the state level. Also, the collection and reporting machinery for the national Program is substantially streamlined. With the development of a state UCR Program, the FBI ceases collection of data directly from individual law enforcement agencies within the state. Instead, completed information from these agencies is forwarded to the national Program through the state data collection agency (Division of Criminal Information in N.C.).

The Committee on Uniform Crime Records, IACP, continues to serve in an advisory capacity to the FBI concerning the operation of the UCR Program. In this connection, the IACP, through surveys of law enforcement records and crime reporting systems, plays an active and effective part. The National Sheriffs' Association (NSA) in June, 1966, established a Committee on Uniform Crime Reporting to serve in an advisory role to the NSA membership and the national UCR Program. This committee actively encourages sheriffs throughout the country to fully participate in the Program.

\* Crime in the U.S., 1985: FBI, Washington, D.C.

## THE DIVISION OF CRIMINAL INFORMATION

The growing need for a central computerized network of criminal justice information for the State prompted an extensive survey by the Governor's Law and Order Committee in 1968. This Committee's report recommended to the General Assembly that an information network be created. The General Assembly enacted legislation in 1969 (G.S. 114, art. 3.) which created the division of criminal statistics and the Police Information Network (PIN) as a part of the Department of Justice.

PIN was authorized by law to collect and correlate information regarding the administration of the criminal laws, to maintain and control the access to such information that is required for the performance of criminal justice duties and to make scientific studies, analyses and comparisons of this data in cooperation with local, state and national criminal justice agencies.

During January of 1985, newly elected Attorney General Lacy Thornburg decided to place the Police Information Network under the control of the State Bureau of Investigation (SBI). Newly appointed SBI Director Robert Morgan, who was instrumental in guiding the progress of PIN's early days as Attorney General, was well acquainted with the operation of PIN.

Realizing the similarity of certain functions and the close working relationship of PIN and the SBI's Identification Division (ID), director Morgan addressed the possibility of a consolidation of PIN and ID. During July of 1985 a determination was made that the best interest of the Bureau and criminal justice community would be served if a merger occurred. This newly formed entity would be called the North Carolina Division of Criminal Information (DCI) and PIN Director William C. Corley was appointed SBI Assistant Director in charge of DCI. It was felt that the Division of Criminal Information was an appropriate name since a major function of DCI would be to collect, store and disseminate criminal history and criminal statistical information.

Today, the Division of Criminal Information maintains a vast computerized network that links local, state and national criminal justice agencies with up to the minute information on crimes and criminals. The network operates twenty-four hours a day, seven days a week collecting, organizing and supplying information. Subscribers to the network have the ability to send messages to any one terminal or group of terminals connected to the service, including terminals in other states through the National Law Enforcement Telecommunications System in Arizona.

The information needs of the law enforcement community have been given the highest priority in the development of the DCI system. DCI also serves many agencies in the state's criminal justice system, such as the courts, District Attorneys, the Department of Correction, and the probation, parole and pardon agencies.

With the increasing mobility of the criminal element, it is important that law enforcement keeps pace. With DCI, the communication of vital information between different law enforcement jurisdictions can be accomplished in seconds. Before the advent of DCI, the common means of communication between agencies was by telephone, or by the highway patrol radio network. Incomplete or erroneous information was sometimes given. Today, DCI's computerized network is noted for its accuracy and speed.

Through linkage with the National Crime Information Center, DCI has access to up-to-date information on stolen vehicles, stolen license plates, stolen property, stolen securities, stolen boats and stolen or recovered firearms. DCI also has access to current information on wanted persons or fugitives from every jurisdiction in the country. In cooperation with the North Carolina Division of Motor Vehicles, DCI provides information concerning automobile registration and driver history in North Carolina. In cooperation with the Motorboat Registration Division of the North Carolina Department of Wildlife, DCI maintains registration information.

The Division also maintains the SBI's case index file, criminal history information, consumer complaint records, DCI terminal user certification records, the Criminal Justice Standards Division's program information, the SBI's crime laboratory evidence analysis records, the Uniform Crime Reports statistical data, as well as the Justice Academy's student records.

As a result of the reorganization, DCI is administratively organized into four sections: Administration, Crime Reporting and Field Services, Identification and Computer Services.

**The Administrative Section** is headed by Supervisor Zeke Best. This section is directly concerned with DCI's budget, administrative procedures, the technical documentation on all computer programs, systems and hardware, operational procedures for terminal users, the collection of DCI terminal subscribers' dues and contractual support for the DCI system.

**The Crime Reporting and Field Services Section** is headed by Doug Kappler and is primarily responsible for collecting and analyzing crime statistics, field training of DCI programs and auditing criminal justice record keeping systems at the federal, state and local level.

DCI publishes a semi-annual crime trend report using statistics from fifteen major North Carolina cities and ten counties; and also a yearly report entitled **Crime in North Carolina**, which analyzes crime by index offense in every county and municipality in North Carolina.

The section also certifies and trains all DCI terminal operators. From the inception of this training program in 1969, DCI has trained and certified more than 3300 terminal operators all over the State.

This section certifies and validates for accuracy all crime data submitted by law enforcement agencies. It is also responsible for handling requests for advisory and technical assistance and supplying forms for record-keeping to enable various law enforcement agencies to better collect and maintain internal records or criminal statistics.

This section also has a staff of training specialists who travel the state to help local law enforcement agencies who request assistance with compiling their criminal statistics, DCI certification training and other DCI related functions, including fingerprint training.

Through this section's Quality Assurance Unit, State Criminal Justice Auditors are responsible for monitoring criminal history record disseminations and wanted/missing files.

**The Identification Section** is headed by Supervisor Stan Lewis. This section is the central repository for criminal history record information in North Carolina and maintains criminal records on over 325,000 different individuals. ID's responsibility is to collect, store and disseminate criminal history information and assure that it is the most up-to-date and accurate information possible.

**The Computer Services Section** is headed by Ken Walker and is responsible for the design, development and implementation of the division's sophisticated computer programs. This includes highly complex computer programs that allow message switching between different terminals, as well as a program that allows any terminal to direct access the National Law Enforcement Telecommunications Center in Phoenix and the National Crime Information Center in Washington.

DCI's many complex computer programs require highly skilled technical and professional experts to design, develop, implement and maintain them. Plans are always being developed to improve and refine the level of service available to terminal subscribers.

This section is also responsible for monitoring the central, main frame operation computer. The division also services DCI user terminals and works with the telephone companies to resolve telephone communications problems.

Because of the critical and important nature of the services provided by DCI, high speed system reliability was the prime objective in the selection and design of the system. DCI consists of two identical computer processors. During normal working operations, one processor services all the user terminals and the other works on administrative tasks such as developing new programs, compiling statistics or studying the volume of traffic. Should the computer servicing the user terminals break down the second computer cuts in to ensure uninterrupted service to all terminal users.

To further ensure the reliability of the system, it has an interruptible power supply. This consists of a battery powered backup from brief power shortages and a complete motor generator system for extended outages. This system allows the network to maintain normal services to users during unforeseen commercial power failures.

To further ensure the reliability of the system, it has an interruptible power supply. This consists of a battery power backup from brief power shortages and a complete motor generator system for extended outages. This system allows the network to maintain normal services to users during unforeseen commercial power failures.

The standard user terminal of the Division of Criminal Information is the UTS-20 Video-Data Terminal attached to a Model 797 output printer. the Video-Data Terminal was chosen because of its high transmission speeds and ease of operation. User terminals are connected to the main computer by standard telephone lines.

Agencies which utilize the DCI system include Sheriff's Offices, Police Departments, the FBI, the Highway Patrol, U.S. Military Agencies, the Division of Motor Vehicles, the Department of Correction, the Wildlife Enforcement Division, the Emergency Operations Center, District Attorney's Offices, the Drug Enforcement, Administration, the U.S. Customs Agency, the U.S. Secret Service, the Blue Ridge Parkway Rangers, and state university campus police.

There are high speed communication links designed for fast data transfer between DCI and the Division of Motor Vehicles; the FBI's National Crime Information Center (NCIC) in Washington; the National Law Enforcement Telecommunications Center (NLETS) in Phoenix, Arizona; and the Police Department of all major cities in North Carolina. These special linkages ensure the fast and accurate transmission of the latest data on criminal activity.

**The Division of Criminal Information** has an Advisory Policy Board, which is composed of thirteen members. The members are drawn from all agencies in the state's law enforcement community serviced by DCI, and includes the SBI Assistant Director for DCI. The Board makes recommendations and decisions regarding the existing operational capacities and proposed expansions of services of the division.

The Division of Criminal Information takes stringent precautions to ensure that only those persons with rightful access to the information in DCI have access to that information and use it only for legitimate law enforcement purposes. Only DCI personnel can enter or modify criminal history data in the systems' CCH file.

All employees of DCI have had thorough background investigations, similar to those made on prospective SBI agents, which are done before and during their employment with the agency. All information drawn from the network is recorded and the individual requesting it can be identified easily. Programming checks are made of information requested on a regular basis, and the checks are audited to ensure that security and confidentiality is maintained.

Citizens who wish to review information on them which may be contained in the system must do so under the auspices of the State Bureau of Investigation. Citizens may review only files which concern themselves. All visitors to the Division of Criminal Information headquarters must sign in and out, must offer positive identification, and must be accompanied at all times. The division does this to ensure confidentiality and ensure every individual's right to privacy.

The Division of Criminal Information is dedicated to improving law enforcement's capability to solve crimes by providing fast and accurate information on crimes and criminals. Through the cooperation of all law enforcement and criminal justice agencies, DCI has developed an outstanding system for getting vital criminal information where it is needed very quickly.

## **REPORTING PROCEDURE**

In the statewide Uniform Crime Reporting Program contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Division of Criminal Information. The Division of Criminal Information in an effort to maintain quality and uniformity in the data received furnishes full-time field representatives who provide training in Uniform Crime Reporting procedures. All contributors also are furnished with the Uniform Crime Reporting Handbook which outlines in detail procedures for scoring and classifying offenses. The Handbook illustrates and discusses the monthly and annual reporting forms as well as the numerous tally sheets made available to facilitate the periodic tabulation of desired data.

A centralized record system is necessary to the sound operation of any law enforcement agency. The record system is an essential basis for crime reporting by the agency. Upon request the Division of Criminal Information makes internal records forms and technical assistance available at no cost to any law enforcement agency. This provides for the establishment or modification of a basic non-automated police records system.

On a monthly basis, law enforcement agencies (police, sheriffs, Highway Patrol, State Bureau of Investigation and Wildlife) report the number of offenses that became known to them during the month in the following crime categories: murder and non-negligent manslaughter, manslaughter by negligence, forcible rape, robbery, assault, burglary, larceny, motor vehicle theft and arson. This count is taken from a record of all complaints of crime received by the law enforcement agency from victims, other sources, and/or discovered by officers. Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from the actual count. The number of "actual offenses known" in these crime categories is reported to DCI without regard to 1) whether anyone is arrested for the crime; 2) stolen property recovered; 3) the local prosecutive policy; or 4) any other restrictive consideration. Law enforcement agencies on a monthly basis report the total number of these reported crimes which they clear either by arrest or exceptional means. A separate count of crimes cleared which involve only persons under the age of 18 is shown. The number of law enforcement officers killed and assaulted and the value of property stolen and recovered during the month are reported. Arrests are reported for all criminal acts, except traffic violations, by crime category including the age, sex, and race of each person arrested. Supplementary information concerning pertinent data surrounding homicides and rapes is reported. Law enforcement employee data specifically encompasses the number of sworn and other personnel and is collected annually.

## **VERIFICATION PROCEDURES**

An obvious concern in the collection of crime statistics is the validity and uniformity of the data received. With the receipt of monthly reports covering approximately 400 jurisdictions, prepared on a voluntary basis, the problems of attaining uniformity are readily apparent. Issuance of instructions does not complete the role of the Division of Criminal Information. On the contrary, it is standard operating procedure to examine each incoming report not only for arithmetical accuracy but also, and possibly of even more importance, for reasonableness as a possible indication of errors.

Numerous checks and cross checks are used to ensure the accuracy of the reports. Errors of a minor nature are corrected by the UCR report verifiers without contacting the contributor. Necessary arithmetical adjustments or unusual variations are noted by the UCR verifiers and brought to the attention of the submitting agency by direct contact through a DCI field representative. Upon resubmission to DCI of a correct return from a field representative, the forms are reverified. Upon completion of all individual verification processes, summary statistics in various forms are derived.

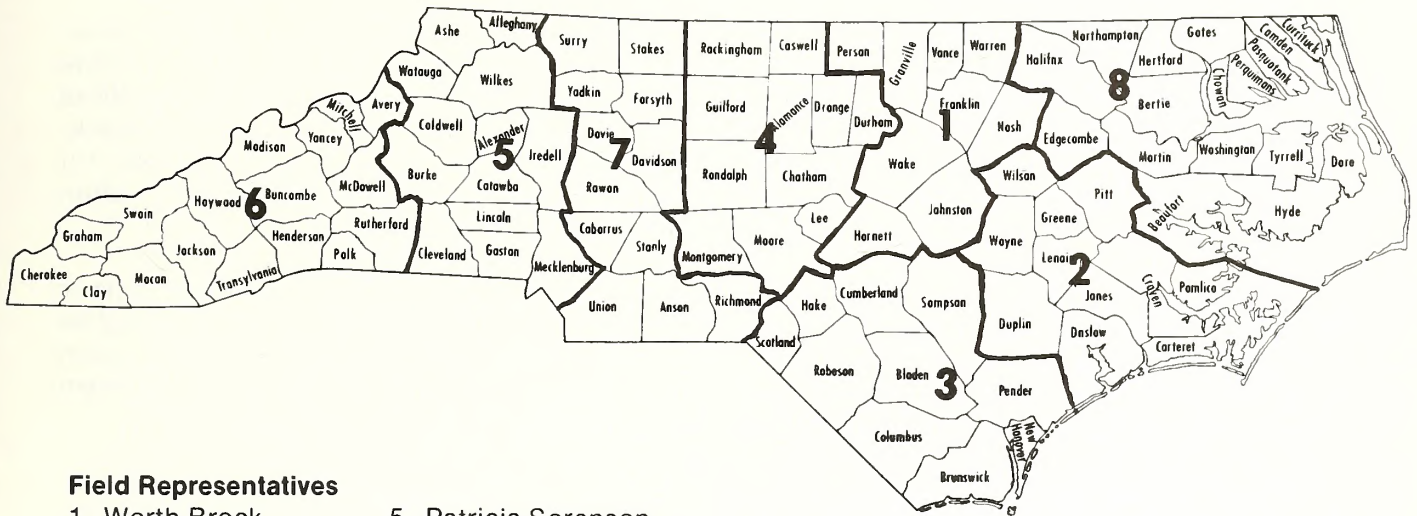

A great deal of the success of North Carolina's UCR Program to this point has largely been due to the full time field staff assigned to assist local agencies in record practices and crime reporting procedures. Personal contact is invaluable to the accuracy and uniformity of UCR data received.

## FIELD REPRESENTATION

For Uniform Crime Reporting purposes the Division of Criminal Information divides the State into eight (8) districts. Eight DCI Field Representatives are assigned to assist local agencies in many areas including record practices and crime reporting procedures. The difficult and important task of maintaining close liaison is obvious when it is realized that services now are extended by DCI, through its Field Representatives, to 470 law enforcement agencies of the State. Education of contributors to the program must be a constant operational requirement, if continued system adherence and valid statistics are to be expected.

As an adjunct to the program, the Division of Criminal Information offers internal records keeping system assistance to those agencies who request it. Assistance is rendered by the Field Representative who provides the necessary guidance and instruction. The personal contact of the Field Representative and the contributor not only serves as a rapid means to resolve areas of report error, but also provides the Field Representative the opportunity to work in other areas with which the Division of Criminal Information is concerned.

## INCIDENT BASE REPORTING

The Division of Criminal Information (DCI) is undertaking the task of developing a statewide Incident Base Reporting System similar to those already operational in many other states. Incident Base Reporting is a less restrictive and more expansive method of collecting crime data as opposed to the current National UCR System from which the statistics in this publication have been drawn.

With Incident Base Reporting, DCI will overcome most of the limitations on crime analysis imposed by the National UCR System simply by changing the method by which crime data are collected and compiled in this state. Conversion to Incident Base Reporting will stop the monthly completion of time-consuming and often error-filled summary reports by the contributing agencies. Instead, agencies will submit to DCI a copy of reports already required and completed by these departments. From these reports DCI will extract the data needed to classify and score all offenses, clearance, arrests, and the like. (The names of all victims, suspects, etc. are deleted from these reports prior to their submission to DCI).

The advantages of such a reporting system are obvious: 1) less paperwork imposed upon participating agencies, 2) better overall uniformity and validity of crime data as a result of the creation of a central classification and scoring unit, 3) streamlining of the records-keeping machinery of all participating agencies offering improved communications and comparability between departments, and 4) vastly enhanced crime data base for analysis purposes.

To fully appreciate the advantages of an enhanced data base consider there are currently no statewide data available through the UCR Program on the following occurrences: 1) kidnapping, 2) white collar crime in its various forms, 3) the writing of worthless checks and other types of fraud, 4) spouse abuse, 5) child molestation, abuse and neglect, 6) desertion/abandonment and nonsupport, 7) blackmail and extortion, 8) escape from custody and resisting arrest, 9) parole and probation violations, 10) court related offenses such as perjury, failure to appear, etc., and 11) thefts of farm and construction equipment and vehicles, boats, petroleum products, tobacco products, drugs, and others.

In addition to the information above, Incident Base Reporting will provide the first valid analysis of the extent of juvenile crime and the criminal misuse of handguns in North Carolina, which would be invaluable in determining appropriate legislation for dealing with these problems. This new system would further allow an examination of the occupational tendencies of criminals and also a mechanism by which modus operandi (M.O.) could be studied and compared on a statewide basis.

Statewide conversion to this new reporting system began in 1980, however, funding by the Legislature to complete the conversion by 1982 never became a reality. Now, with the national study of UCR, a new emphasis has been placed upon an Incident Base System at both the national and state level. As a result of reorganization, there have been some changes within DCI that now indicate that conversion to a statewide Incident Base system could be a reality in the near future.

## CONTRIBUTING AGENCIES AND POPULATION COVERAGE

There are currently an average of 386 law enforcement agencies throughout the State contributing monthly and directly to the North Carolina Uniform Crime Reporting Program. Each month approximately 91 out of 94 county Sheriff's Departments and 279 out of 316 Police Departments participate.

In addition, State law enforcement agencies (North Carolina State Bureau of Investigation-SBI, North Carolina Highway Patrol-SHP, North Carolina State Government Security Force-SGSF, Wildlife Protection Division, several Campus Police Departments and a number of Alcoholic Beverage Control Agencies-ABC) submit data to the program. Uniform Crime reports received from these agencies represent statistical data covering approximately 95.7 percent of the estimated North Carolina population.

### JANUARY 1, 1986 - December 31, 1986

	Total	Police	Sheriff	SHP	SGSF	SBI	Wildlife	Campus PD's	ABC	Percent of Pop. Cov.
January	391	283	93	1	1	1	1	8	3	96.1
February	392	283	93	1	1	1	1	8	4	96.1
March	392	284	92	1	1	1	1	8	4	95.8
April	388	280	92	1	1	1	0	8	4	95.5
May	384	279	89	1	1	1	0	8	4	94.8
June	385	278	91	1	1	1	0	8	4	95.6
July	390	282	92	1	1	1	1	8	4	96.0
August	389	280	93	1	1	1	1	8	4	96.1
September	387	278	93	1	1	1	1	8	4	96.1
October	384	276	92	1	1	1	1	8	4	95.8
November	379	272	91	1	1	1	1	8	4	95.1
December	381	274	91	1	1	1	1	8	4	95.5
Average	386	279	91	1	1	1	0	8	3	95.7

The table above sets forth the number of agencies by type that have participated in the North Carolina Uniform Crime Reporting Program through December 1986. The State Highway Patrol, Wildlife and State Bureau of Investigation are each counted as one agency even though: A) a monthly report is received from the State Highway Patrol and Wildlife reflecting activity in each county and B) a monthly report is received from each Special Agent of the State Bureau of Investigation.

## INCIDENT BASE REPORTING

The Division of Criminal Information (DCI) is undertaking the task of developing a statewide Incident Base Reporting System similar to those already operational in many other states. Incident Base Reporting is a less restrictive and more expansive method of collecting crime data as opposed to the current National UCR System from which the statistics in this publication have been drawn.

With Incident Base Reporting, DCI will overcome most of the limitations on crime analysis imposed by the National UCR System simply by changing the method by which crime data are collected and compiled in this state. Conversion to Incident Base Reporting will stop the monthly completion of time-consuming and often error-filled summary reports by the contributing agencies. Instead, agencies will submit to DCI a copy of reports already required and completed by these departments. From these reports DCI will extract the data needed to classify and score all offenses, clearance, arrests, and the like. (The names of all victims, suspects, etc. are deleted from these reports prior to their submission to DCI).

The advantages of such a reporting system are obvious: 1) less paperwork imposed upon participating agencies, 2) better overall uniformity and validity of crime data as a result of the creation of a central classification and scoring unit, 3) streamlining of the records-keeping machinery of all participating agencies offering improved communications and comparability between departments, and 4) vastly enhanced crime data base for analysis purposes.

To fully appreciate the advantages of an enhanced data base consider there are currently no statewide data available through the UCR Program on the following occurrences: 1) kidnapping, 2) white collar crime in its various forms, 3) the writing of worthless checks and other types of fraud, 4) spouse abuse, 5) child molestation, abuse and neglect, 6) desertion/abandonment and nonsupport, 7) blackmail and extortion, 8) escape from custody and resisting arrest, 9) parole and probation violations, 10) court related offenses such as perjury, failure to appear, etc., and 11) thefts of farm and construction equipment and vehicles, boats, petroleum products, tobacco products, drugs, and others.

In addition to the information above, Incident Base Reporting will provide the first valid analysis of the extent of juvenile crime and the criminal misuse of handguns in North Carolina, which would be invaluable in determining appropriate legislation for dealing with these problems. This new system would further allow an examination of the occupational tendencies of criminals and also a mechanism by which modus operandi (M.O.) could be studied and compared on a statewide basis.

Statewide conversion to this new reporting system began in 1980, however, funding by the Legislature to complete the conversion by 1982 never became a reality. Now, with the national study of UCR, a new emphasis has been placed upon an Incident Base System at both the national and state level. As a result of reorganization, there have been some changes within DCI that now indicate that conversion to a statewide Incident Base system could be a reality in the near future.

## CONTRIBUTING AGENCIES AND POPULATION COVERAGE

There are currently an average of 386 law enforcement agencies throughout the State contributing monthly and directly to the North Carolina Uniform Crime Reporting Program. Each month approximately 91 out of 94 county Sheriff's Departments and 279 out of 316 Police Departments participate.

In addition, State law enforcement agencies (North Carolina State Bureau of Investigation-SBI, North Carolina Highway Patrol-SHP, North Carolina State Government Security Force-SGSF, Wildlife Protection Division, several Campus Police Departments and a number of Alcoholic Beverage Control Agencies-ABC) submit data to the program. Uniform Crime reports received from these agencies represent statistical data covering approximately 95.7 percent of the estimated North Carolina population.

### JANUARY 1, 1986 - December 31, 1986

	Total	Police	Sheriff	SHP	SGSF	SBI	Wildlife	Campus PD's	ABC	Percent of Pop. Cov.
January	391	283	93	1	1	1	1	8	3	96.1
February	392	283	93	1	1	1	1	8	4	96.1
March	392	284	92	1	1	1	1	8	4	95.8
April	388	280	92	1	1	1	0	8	4	95.5
May	384	279	89	1	1	1	0	8	4	94.8
June	385	278	91	1	1	1	0	8	4	95.6
July	390	282	92	1	1	1	1	8	4	96.0
August	389	280	93	1	1	1	1	8	4	96.1
September	387	278	93	1	1	1	1	8	4	96.1
October	384	276	92	1	1	1	1	8	4	95.8
November	379	272	91	1	1	1	1	8	4	95.1
December	381	274	91	1	1	1	1	8	4	95.5
Average	386	279	91	1	1	1	0	8	3	95.7

The table above sets forth the number of agencies by type that have participated in the North Carolina Uniform Crime Reporting Program through December 1986. The State Highway Patrol, Wildlife and State Bureau of Investigation are each counted as one agency even though: A) a monthly report is received from the State Highway Patrol and Wildlife reflecting activity in each county and B) a monthly report is received from each Special Agent of the State Bureau of Investigation.

## UCR SYSTEM FLOW

The Division of Criminal Information is pleased with the progress of the Uniform Crime Reporting Program to this point notwithstanding the fact that there are many challenges yet to be met. The UCR staff is working vigorously toward achieving a program of excellence in terms of the quality of data submitted, the jurisdiction coverage represented, and the value of meaningful statistical feedback and interpretation.

## SECTION TWO

# CONSIDERATIONS FOR INTERPRETATION

## UCR LIMITATIONS

**N.C. UCR PROGRAM.** Information currently collected by the North Carolina Program is generally the same as that gathered by the National system, and the methods of classifying and scoring (counting) offenses and arrests are the same. This readily enables comparisons with other states and the Nation (see the National Crime Rate Tables in Section VI), but the information gaps present in the National program are also inherent in North Carolina's system.

**PRIMARY PURPOSE.** The Uniform Crime Reporting Program has been subject to much criticism during its history, and while many of these commentaries have been valid, at least some of the shortcomings are understandable when it is remembered that the program has been developed to furnish management information for use primarily by law enforcement agencies.

The Uniform Crime Reports are not a court or corrections statistical program. They are not designed to furnish an overview of the workings of our entire criminal justice system, nor are they able to give the complete picture of law enforcement activity. The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, and the like.

Therefore, much of the criticism of the UCR Program itself is weakened when its stated purpose is kept in mind. Uniform Crime Reports data are the best crime information currently available since they reflect the key events (criminal offenses) that set in motion the various phases of our criminal justice process. The number of arrests, prosecutions, or convictions, while capable of more precise measurement, nevertheless is less indicative of the amount and nature of crime because such data is further removed from the original event. But, because the Uniform Crime Reporting Program is the only recurring crime and arrest reporting program operating on a national level, of necessity it serves as the base for assessing the many significant information gaps at the input end of the criminal justice system.

**TYPE DATA COLLECTED.** A first step in the control of crime is to ascertain the true dimensions of the problem. However, present statistics as gathered by the UCR Program measure neither the real incidence of crime nor the full amount of economic loss of victims. Information regarding the number of offenses and clearances is collected only for the eight Part 1 crimes and simple assault. Value and type property stolen and recovered data is requested only for property stolen in Part 1 offense categories. There is no calculation made for property damaged except in the arson offense classification.

For the Part 2 offenses (except simple assault), the only information submitted is the number of arrests for these crimes according to the age, sex, race, and ethnicity of the subject. Consequently, there is no record of the actual number of these offenses occurring.

Moreover, the broad categorization of these data does not allow an examination of the number of offenses reported nor the arrests made for such offenses as spouse abuse, the writing of worthless checks, and kidnapping. The number of these particular offenses or arrests, as well as others, are included in such general categories as Assault, Fraud, and All Other Offenses.

Although some victimization data is collected in the offense categories of Homicide and Rape, there is no record of the victims of Robbery, Assault, Burglary, and the remainder of the UCR Part 1 and 2 offenses.

**DEGREE OF SERIOUSNESS.** The Crime Index does not explicitly take into account the varying degrees of seriousness of its components. Each crime receives the same weight as it is added to the Index. Consequently, an auto theft is counted the same as a murder, and an aggravated assault is weighted equally with an attempted burglary. Any review of crime must consider the volume, rate, and trend of each offense that comprises the Index and the relationship between these crimes.

**UCR CLASSIFICATION AND SCORING PROCEDURES.** The North Carolina and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested, and difficulty can arise if this distinction is not kept firmly in mind. Crimes relate to events, but arrests relate to persons. The classifying and scoring of one robbery, for instance, could involve several offenders, several victims, and even the commission of other offenses which would go unreported for UCR purposes (see Scoring of Offenses in this Section).

Even more of the total crime picture is lost when arrests are scored. UCR counts only the number of people arrested and not the number of charges per person. Clearly, one arrest could involve any number of different or similar charges against one offender.

**VALUE OF PROPERTY STOLEN AND RECOVERED.** What effect the recent soaring rates of inflation may be having on the report of these data along with other factors affecting these sums is impossible to calculate. The UCR methods of valuing stolen property involve the acceptance of the victim's evaluation in most instances, and exaggeration of these figures is quite possible.

**JUVENILE CRIME DATA.** The accuracy of juvenile offense and arrest statistics varies from department to department since the procedures for handling juveniles are not nearly as uniform as those for adults. Many juvenile offenders are handled informally and, as a consequence, inaccurate or incomplete recording of the event or action may result. Furthermore, the degree of juvenile involvement in solved offenses is probably seriously misunderstood because juvenile participation in clearances is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

**REPORTING VARIATION.** North Carolina now receives Uniform Crime Reports from approximately 400 law enforcement agencies monthly. Because the number of reporting agencies is so large, one must be aware that unintentional variations from UCR guidelines may occur and pass undetected affecting the validity of the data presented here. Municipal ordinances, local criminal justice administrative policies, efficiency and thoroughness of record keeping, and Uniform Crime Reporting proficiency and practices all affect the amount of crime and arrests reported. Furthermore, socio-economic conditions and the characteristics and attitudes of the local population influence the magnitude and nature of criminal behavior in a community.

**CONCLUSION.** The preceding comments should not be viewed as an indictment of the Uniform Crime Reporting Program which, admittedly, was designed to meet only the minimal operational requirements of a law enforcement agency. It is doubtful that those people tasked with creating this program some fifty years ago could ever have envisioned the informational demands now being placed on today's law enforcement. While current methods of gathering and reporting crime and arrest data provide a less than complete picture of criminality in our society, there is at present no other information system in general use that will more adequately perform this task.

## THE INDEX OF CRIME

The crime index offense table can be used to indicate the probable extent, fluctuation, and distribution of crime for the State of North Carolina as a whole, geographic divisions, individual counties, individual cities and towns, and standard metropolitan statistical areas. The measure used is a Crime Index consisting of seven important offenses which are counted as they become known to the law enforcement agencies. Crime classifications used in the Index are: Murder and non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary—breaking and entering, larceny and motor vehicle theft.

The total number of criminal acts that occur is unknown, but those that are reported to Law Enforcement provide the first means of a count. Not all crimes come readily to the attention of Law Enforcement; not all crimes are of sufficient importance to be significant in an index; and not all important crimes occur with enough regularity to be meaningful in an index. The bullseye below sets forth hypothetical percentages of crime information that are derived from various sources, and, in so doing, highlights the importance of the statistics contained in this volume.

## CLASSIFICATION OF OFFENSES

UCR divides offenses into two major classifications which are designated Part 1 and Part 2 offenses. This distinction is important to keep in mind because different information is collected for each. Part 1 offenses include 1) Violent Crimes; murder and non-negligent manslaughter, negligent manslaughter, forcible rape, robbery and aggravated assault; and 2) Non-Violent (Property) Crimes: burglary, larceny-theft, motor vehicle theft and arson. All other offenses are classified as Part 2 (see Offense Definitions in this section).

The Part 1 offenses, excluding negligent manslaughter and temporarily arson, are used to calculate the Crime Index and Crime Rate.

All offenses are classified on the basis of law enforcement officer investigation in accordance with UCR offense definitions (which will not necessarily coincide with N.C. statute definitions). Because UCR identifies a police problem, offense classifications are not based on the findings of a court, coroner, jury or decision of a prosecutor.

## SCORING OF OFFENSES

Only the number of those offenses for Part 1 crimes and simple assault are scored (counted) for UCR. The method of scoring varies with the type of crime committed and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and non-negligent manslaughter, negligent manslaughter, rape, and aggravated and simple assault, one offense is scored for each victim, regardless of the number of offenders involved. For example, three offenders could be involved in the murder of one victim, and in this case one murder would be scored.

For robbery and larceny, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses. For example, if 10 people are robbed in a bar at the same time, only one offense is counted. However, if that robber then leaves the bar and holds up a passerby, a second offense has occurred and would be scored.

For burglary, one offense is counted for each "structure" which is illegally entered. For UCR purposes, a "structure" is generally defined as an enclosed, permanently occupied area. The illegal entries for the purpose of committing a felony or theft of such structures as dwelling houses, garages, offices, barns, and the like are considered burglaries, and one burglary is scored for each separate unit entered. The illegal entry of those structures used to house transients such as hotel rooms is scored as one burglary regardless of the number of these rooms that have been entered.

For motor vehicle theft, one offense is counted for each vehicle stolen. For UCR purposes, a motor vehicle is defined as any self-propelled vehicle that runs on the surface and not on rails or a body of water. Thefts of farm and construction equipment are excluded from this definition and are scored as larcenies.

For arson, one offense is counted for each occurrence even if a more serious offense such as murder occurred as a result of the act.

Additionally any attempts to commit any of the above are also counted with the exception of attempts or assaults to kill which are classified and scored under aggravated assaults.

For multiple offenses that occur in one crime incident (at the same "time and place"), only the most serious offense is counted with the exceptions of arson (always counted) and a combination of larceny and motor vehicle theft (only the motor vehicle theft will be counted). Part 1 crimes are ranked according to seriousness and appear in order from most serious to least serious (See order of crimes in Offense Definitions in this section). For example, a robber may seize a man's wallet and then beat him causing serious injury. Both a robbery and an aggravated assault have occurred, but because robbery is considered by UCR to be more serious, only the robbery is scored. From one perspective, this method of counting seriously understates the crime problem, but from another, it prevents undue inflation of crime statistics. A Part 2 offense that occurs in combination with Part 1 offenses or by itself is not counted.

## **CLEARANCES**

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved. Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; or when the victim refuses to prosecute or another jurisdiction refuses to extradite.

Clearances are counted as either "adult" or "juvenile". A "juvenile" clearance is counted only when juveniles are involved exclusively in the commission and clearance of an offense. If the arrest of both adults and juveniles results in a clearance, it is counted as an "adult" clearance.

When examining clearance data, keep in mind that not all crimes are cleared within the calendar year in which the offense occurs. Also note that the recovery of property stolen with regard to a specific offense does not, by itself, constitute a clearance for UCR purposes.

## **PROPERTY STOLEN AND RECOVERED**

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen or recovered property is reported only for Part 1 offenses and does not include property losses suffered as a result of the commission of any Part 2 offenses such as fraud or embezzlement.

As was stated in the part on UCR LIMITATIONS, these values are affected by many variables and must be considered estimates at best. It is sometimes difficult to trace the recovery of some stolen property back to the offense or even the departmental jurisdiction in which the theft occurred. This coupled with the fact that the market value at the time of recovery is used instead of at the time of the theft should prompt cautious analysis of this data.

## **ARRESTS**

Arrest information is collected for all Part 1 and Part 2 offenses according to the age, sex, race, and ethnicity of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all the offenders who have been arrested even if several were involved in the commission of a singular offense. Therefore, arrest and clearance totals will be equal only by coincidence.

It should be kept in mind that arrest totals are not indicative of the number of different people involved in the commission of crime. A total of three arrests may represent the arrest of three different people or the arrest of the same person on three different occasions. Moreover, arrest totals also do not indicate the number of charges placed against an individual at the time of arrest.

## **CRIME FACTORS**

The amount and rate of crime for a particular community can sometimes be quite deceiving unless several factors are taken into consideration. Set forth next are some of the conditions which will, by type and volume, affect the crime that occurs from place to place:

1. Density and size of the community population and metropolitan areas of which it is a part.
2. Composition of the population with reference particularly to age, sex, and race.
3. Economic status and mores of the population.
4. Relative stability of population including commuters, seasonal, and other transient types.
5. Climate, including seasonal weather conditions.
6. Educational, recreational, and religious characteristics.
7. EFFECTIVE STRENGTH OF THE POLICE FORCE.
8. STANDARDS GOVERNING APPOINTMENT TO THE POLICE FORCE.
9. POLICIES OF THE PROSECUTING OFFICIALS AND THE COURTS.
10. ATTITUDE OF THE PUBLIC TOWARDS LAW AND ENFORCEMENT PROBLEMS.
11. THE ADMINISTRATIVE AND INVESTIGATIVE EFFICIENCY OF THE LOCAL LAW ENFORCEMENT AGENCY INCLUDING THE DEGREE OF ADHERENCE TO CRIME STANDARDS.

## **OFFENSE DEFINITIONS**

### **PART 1 OFFENSES**

#### **CRIMINAL HOMICIDE:**

##### **a. Murder and Non-negligent Manslaughter:**

The willful, non-negligent killing of one person by another. Excludes attempts or assaults to kill (classified as aggravated assault), suicide, and accidental deaths. The killing of a felon by a private citizen or the killing of a felon by a police officer in the line of duty are considered justifiable homicides by UCR and are excluded from this count.

##### **b. Negligent Manslaughter:**

The killing of another person through gross negligence. Traffic fatalities are not counted.

#### **RAPE:**

The carnal knowledge of a female through the use of force or the threat of force. Assaults to commit forcible rape are also included; however, statutory rape (without force) is not counted in this category.

#### **ROBBERY:**

The taking or attempting to take anything of value from the care, custody, or control of a person by force or threat of force and/or by putting the victim in fear.

**AGGRAVATED ASSAULT:**

The unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed. Attacks using personal weapons (part of the attacker's body) must result in serious personal injury to be classified as aggravated assault. Simple assaults are excluded from this count.

**BURGLARY:**

The unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary. Burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

A "structure" is considered to include the following, but not limited to: dwelling houses, apartments, out buildings, public buildings, offices, factories, barns, cabins, etc.

**LARCENY:**

The unlawful taking or stealing of property or articles without the use of force, violence, or fraud. This includes crimes such as shoplifting, purse snatching, pocket picking, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc. This crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is excluded from this category inasmuch as it is separate Part 1 offense.

**MOTOR VEHICLE THEFT:**

The unlawful taking or stealing of a motor vehicle, including attempts. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

UCR defines a motor vehicle as a self-propelled vehicle that runs on the ground and not on rails. Examples include automobiles, trucks, buses, motorcycles, mopeds, snowmobiles, etc. Thefts of farm and/or construction equipment, boats, and airplanes are not included in this category but are counted as larcenies.

**ARSON:**

The willful or malicious burning of property with or without the intent to defraud. Includes attempts.

**PART 2 OFFENSES****OTHER (SIMPLE) ASSAULTS:**

An unlawful attack or attempted attack upon another which does not result in serious injury to the victim and which does not involve the use of a dangerous weapon.

**FORGERY AND COUNTERFEITING:**

The making, altering, using or possession, with intent to defraud, of anything false which is made to appear true. Includes attempts.

**FRAUD:**

Fraudulent conversion and obtaining money or property by false pretenses. Includes bad checks, confidence games, illegal conversion of services, etc., except forgeries and counterfeiting.

**EMBEZZLEMENT:**

Misappropriation or misapplication of money or property entrusted to one's care, custody, or control. Includes larceny from employer.

**STOLEN PROPERTY:**

The buying, receiving, and possessing of stolen property, or the attempt to do so.

**VANDALISM:**

The willful or malicious destruction, injury, disfigurement or defacement of real or personal property without the consent of the owner or person having custody or control. Includes attempts.

**WEAPONS:**

All violations of regulations or statutes that control carrying, using, possessing, furnishing, and manufacturing deadly weapons or silencers. Includes attempts.

**PROSTITUTION AND COMMERCIALIZED VICE:**

Sex offenses and attempted sex offenses of a commercialized nature. Includes prostitution, keeping houses of ill fame, pandering, detaining women for immoral purposes, etc.

**ALL OTHER SEX OFFENSES:**

All other offenses against common decency and morals. Includes statutory rape (without force) and all other sex offenses not previously defined.

**DRUG LAWS:**

The unlawful possession, sale, use, growth or manufacture of controlled substances. For UCR purposes these offenses are broken down into four subcategories: a. Opium or cocaine and their derivatives (morphine, heroin, codeine), b. Marijuana, c. Synthetic narcotics — manufactured narcotics which can cause true drug addition, d. Dangerous non-narcotic drugs.

**GAMBLING:**

Promoting, permitting or engaging in illegal gambling. Includes bookmaking, numbers and lottery, etc.

**OFFENSES AGAINST THE FAMILY OR CHILDREN:**

All charges of nonsupport and neglect or abuse of family or children. Note: Most child abuse, especially that resulting in injury, has been classified as either simple or aggravated assault.

**DRIVING WHILE IMPAIRED**

Operating any motor vehicle or common carrier while under the influence of liquor or drugs.

**LIQUOR LAWS:**

Violation of state or local regulatory laws. Includes sale to minors and drinking on a public conveyance. This category excludes Driving Under the Influence and Drunk and Disorderly violations.

**DISORDERLY CONDUCT:**

Breaching the peace or attempting to do so. Includes violations of disturbing the peace, unlawful assembly, and drunk and disorderly.

**VAGRANCY:**

Violation of state or local statutes pertaining to being a "suspicious character or person", vagrancy, etc.

**ALL OTHER OFFENSES:**

All violations of state or local regulatory laws except traffic offenses and offenses defined above or below. Includes kidnapping, extortion, trespass, etc.

**CURFEW AND LOITERING LAWS:**

Juvenile violations of local curfew and loitering ordinances.

**RUNAWAY-(JUVENILES):**

The unlawful truancy from a legal place of residence by a juvenile.

## SECTION THREE

### N.C. CRIME INDEX DATA

# TOTAL INDEX CRIME

## DEFINITION

The UCR Crime Index consists of the sum total of the following seven offenses reported to law enforcement: murder, rape, robbery, aggravated assault, burglary, larceny, and motor vehicle theft. An eighth index crime, arson, has been temporarily excluded from this count.

## TREND

Year	No. of offenses	% Change (over previous year)	Rate per 100,000	% Cleared
1982	268,159	+ 1.6	4,602.6	25.6
1983	248,404	- 7.5	4,239.0	25.9
1984	243,377	- 2.0	4,111.9	25.9
1985	249,965	+ 2.7	4,203.5	25.7
1986	266,240	+ 6.5	4,395.9	25.4

## 1986 FEATURES

Most frequent month	August
Least frequent month	February
Most common offense	Larceny from Motor Vehicles
Most common offender (arrestee)	Black Male (age 18)

# TOTAL INDEX CRIME

## INDEX CRIME Percent Distribution 1986

Percentages may not add to 100% due to rounding.

# NORTH CAROLINA CRIME CLOCK 1986

one  
**MAJOR CRIME**  
every 2 min. 0 sec.

one  
**VIOLENT CRIME**  
every 18 min. 0 sec.

one

## **VIOLENT CRIME**

- **Murder**
- **Rape**
- **Robbery**
- **Aggravated Assault**

# VIOLENT CRIME

## DEFINITION

For UCR purposes, Violent Crime consists of the sum total of murders, rapes, robberies, and aggravated assaults reported to law enforcement.

With the exception of robbery, one violent crime is counted for each person victimized. In the instance of robbery, each act or operation is counted as one offense as it is added to the crime total.

## TREND

Year	No. of offenses	% Change (over previous year)	Rate per 100,000	% Cleared

Assault With a Dangerous Weapon

Most common offender (arrestee)

Black Male (age 24)

# VIOLENT CRIME

## VIOLENT CRIME Percent Distribution 1986

# MURDER

## DEFINITION

Murder is defined as the willful (nonnegligent) killing of another. The classification of this offense, as in all of the other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body.

Deaths caused by negligence, suicide, accident, or justifiable homicide are not included in the count for this offense classification. Attempts to murder or assaults to murder are scored as aggravated assaults and not as murder.

# FORCIBLE RAPE

## DEFINITION

Forcible rape, as defined in the Uniform Crime Reporting Program, is the carnal knowledge of a female through the use of force or the threat of force. Assaults to commit forcible rape are also included; however, statutory rape (without force) is not counted in this category.

In any instance of rape, one offense is counted for each person raped or upon whom an assault to rape or attempt to rape has been made.

## TREND

<u>Year</u>	<u>No. of offenses</u>	<u>% Change (over previous year)</u>	<u>Rate per 100,000</u>	<u>% Cleared</u>

# ROBBERY

## DEFINITION

Robbery is defined as the taking or attempting to take anything of value from the care, custody, or control of a person by force or threat of force and/or by putting the victim in fear. The crime of robbery is a vicious type of theft which takes place in the presence of the victim.

In any instance of robbery, one offense is counted for each distinct operation without regard to the number of persons robbed or the number of persons committing the crime.

## TREND

Percentages and values have been rounded.

\*Present UCR classification and scoring procedures prevent a precise measurement of these classifications and their corresponding values (see Scoring of Offenses in Section 2). Further, the total value stolen cannot be determined at the time of police investigation. This is especially true with regard to bank robbery (compare the bank robbery statistics in this table with those provided by the FBI on the next page).

# AGGRAVATED ASSAULT

## DEFINITION

Aggravated assault is defined as the unlawful attack by one person upon another for the purpose of inflicting severe bodily injury usually accompanied by the use of a weapon or other means likely to produce death or serious bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

# PROPERTY CRIME

## DEFINITION

For UCR Purposes, Property Crime consists of the sum total of burglaries, larcenies, and motor vehicle thefts reported to law enforcement. Arson has been temporarily excluded from this count.

Generally, one property crime is counted for each act or operation.

# BURGLARY

## DEFINITION

Burglary is defined as the unlawful entry of a "structure" to commit a felony or theft. The use of force to gain entry is not required to classify the crime as burglary in the Uniform Crime Reporting Program. The offense of burglary is broken down into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

A "structure" is considered to include the following, but not limited to: dwelling house, apartment, out buildings, public buildings, offices, factories, etc.

# LARCENY

## DEFINITION

Larceny-theft is defined as the unlawful taking or stealing of property or articles without the use of force, violence, or fraud. It includes crimes such as shoplifting, purse-snatching, pocket-picking; thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc. This crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft, of course, is excluded from this category inasmuch as it is a separate Crime Index offense.

# MOTOR VEHICLE THEFT

## DEFINITION

Motor vehicle theft is defined as the unlawful taking or stealing of a motor vehicle, including attempts. This definition excludes taking for temporary use by those persons having lawful access to the vehicle.

The Uniform Crime Reporting Program defines a motor vehicle as a self-propelled vehicle that runs on the ground and not on rails. Examples include automobiles, trucks, buses, motorcycles, mopeds, snowmobiles, etc. Thefts of farm and/or construction equipment, boats, and airplanes are not included in this category but are counted as larceny-thefts.

**INDEX CRIME  
PROJECTIONS  
FOR  
1987**

# INDEX CRIME PROJECTIONS 1987

The Index Crime projections shown in this section are estimates computed by a Least-Squares Linear Regression Method. The algebraic formula for linear regression ( $Y = a + bX$ ), quite simply put, permits one to determine "Y" (the incidence of crime) from the relative slope of a line "b".

The actual number of reported offenses for each year since 1977 have been used for points on these graphs rather than estimates for 100% population coverage (the difference is negligible). A projected range at the 90 percent confidence level has been calculated for each category and is shown as an upper and lower level percent change for the year 1986 over 1987 in the gray area on the righthand side of each graph. At the 90 percent confidence level, a specific percent change outside the projected range could be expected to occur only ten times out of one hundred. Volumes occurring outside the range represent a significant change, and further research is recommended to pinpoint possible influencing crime factors responsible for the directional change.

**NORTH CAROLINA  
CONTRIBUTING AGENCY  
PROFILE**

# NORTH CAROLINA CONTRIBUTING AGENCY PROFILE

## INTRODUCTION

The following tables contain statistical data contributed by N.C. law enforcement agencies for the years 1985 and 1986. Each county is listed alphabetically. Agencies within each county are listed in order of participation (Sheriff listed first). All data are final as of March 1, 1987. Please note that some 1985 data have been updated since the last annual release reflecting the addition of reports received after the 1985 publication deadline.

## CRIME RATE

In Table 1 (pp. 89, 90) the crime rates per 100,000 population have been determined by dividing 100,000 by the estimated population and multiplying this factor by the total number of offenses reported in each instance. For example:

	Year	Total Index	Estimated Population
Agency A	1986	2,000	25,000
Computation:	100,000	$\div$ 25,000	= 4.0
	4.0	$\times$ 2,000	= 8,000.0

Therefore, the rate per 100,000 population for Agency A's total index would equal 8,000.

## CRIME INDEX

In Table II (pp. 92, 144) the CRIME INDEX TOTAL column reflects the addition of the seven index offenses which appear under the VIOLENT and NONVIOLENT (PROPERTY) CRIME headings. The number of reported arsons has not been included as part of the CRIME INDEX nor as a factor in the reported arsons has not been included as part of the CRIME INDEX TOTAL nor as a factor in the crime rate calculations.

All county totals include those offenses reported by the Highway Patrol and the SBI divisions within them. The total number of offenses reported statewide by the Wildlife Comm. is listed separately at the end of the tables.

## PERCENT CHANGES

Space did not allow for the calculation of percent changes from year to year, but this change may be obtained simply by subtracting the smaller number from the larger number and dividing the difference by the 1985 figure. Multiply by 100 to change to % and determine the sign (plus or minus) by whether the number increased or decreased in 1986. For example:

	Year	Total Index
Agency A	1985	1,500
	1986	2,000
Computation:	2,000	$-$ 1,500 = 500
	500	$\div$ 1,500 = .333 (X 100) = 33.3%

Since the number of reported offenses increased in 1986 the % change would equal to +33 (rounded to the nearest whole number).

## **ARSON**

**CAUTION.** Many N.C. law enforcement agencies do not routinely investigate the offense of arson unless this crime has been committed in conjunction with the occurrence of some other offense (such as murder, burglary, etc.). Arson investigation remains predominantly within the domain of fire services in North Carolina, and therefore many of these offenses occur and go unreported to local law enforcement.

Since the N.C. UCR Program does not collect statistics directly from the fire service community, the extent of arson as a crime problem in this state may be severely underestimated based upon the statistics contained in this publication. The number of arsons reported as stated in these tables are only those of which N.C. law enforcement have been made aware.

### **MONTHS (MOS.) ON FILE**

The Months on File column indicates the number of months reported for each year on file at DCI. The History of Contributor Participation section in this publication charts the exact months by agency for which DCI is missing UCR data.

### **DEMOGRAPHIC DATA**

The 1985 population estimates have been provided by the N.C. Department of Administration and are based on the 1980 Census figures.

The 1986 population estimates have been provided by the N.C. Department of Administration and are based on the 1980 Census figures.

The population of non-jurisdictional areas such as military installations and some universities have been subtracted from these estimates when necessary. The fact that these estimates do not take into account seasonal population fluctuations affects the crime rates of most resort and campus localities and should prompt cautious analysis of the data in these particular areas.

The crime statistic reported by an individual agency indicate what is happenign in one particular area, but to make valid comparisons among a number of jurisdictions, communities need to be grouped together. It may be important to know how a city compares with cities of similar size, or how patterns of crime differ in various types of communities. For these reasons DCI has assigned a character designation to each jurisdiction according to those factors which go into defining an area as either urban or rural. A somewhat simplified concept of the Metropolitan Statistical Area (MSA) has been used for these differentiations and is outlined as follows:

### **COMMUNITY TYPE (CHARACTER)**

Core City: Any city with a population of 50,000 or more that is within a MSA.

Suburban City: Any city that is within a MSA exclusive of the core cities.

Suburban County: Any county that is within a MSA.

Rural Center: Any city was a population of 10,000 or more that is noit within a MSA.

Rural City: Any city under 10,000 population and not within a MSA.

Rural County; Any county that is not within a MSA.

Campus: Any state university campus notwithstanding suburban or rural designation.

Obviously, these categories could be broken down further into even more specific community types employing a wide range of other data such as population density, projected growth, etc., but the designations outlined above will satisfactorily serve the purposes for which the statistical data have been intended.

## **EMPLOYEE DATA**

The Police Employee data provided lists the number of those full-time sworn and civilian people employed at each agency as of October 31 of the year indicated. The number of parttime employees is not listed but is available upon request. County totals include employees of agencies which chose not to participate in the UCR Program. (See table of Incomplete reporting.)

## **SPECIAL CHARACTERS**

Variations in agency reporting have caused for special characters to be used in place of statistical data in some instances. The following legend translates these characters:

- C - Indicates this area was covered by another agency for UCR purposes for all or most of the reporting year.
- DNP - Did not participate in the UCR Program (for whatever year indicated). See history of contributor participation section.
- NA - Not Applicable. This character was generally used whenever a reasonable crime rate could not be calculated.
- No Pop. - No population data was available for the year indicated.
- (Pop.) - The population estimate for this jurisdiction was not included in the county or state totals because of non-UCR participation.

Some spaces were left BLANK for one of two reasons: (1) data would not be applicable in this instance (generally in those areas covered by another agency), or (2) data had not been received (do not assume, therefore, the number "zero" in blank spaces).

NOTE: All UCR data provided is actual. Estimates for 100% population coverage have not been used.

A map of North Carolina showing its 100 counties. The counties are color-coded by congressional district. The map includes the following counties and their corresponding districts:

- District 1 (Red):** Madison, Buncombe, Haywood.

## SECTION FOUR

# N.C. PROPERTY CRIME DATA

# PROPERTY STOLEN AND RECOVERED

The tables and charts on the following pages indicate the value of property stolen and recovered by month, type, and offense in North Carolina during 1986.

The reader should note that these values relate only to index crime. Property lost or damaged as a result of crimes such as fraud, embezzlement, vandalism, and the remainder of the non-index offenses are not included in these totals.

## VALUE OF PROPERTY STOLEN AND RECOVERED BY MONTH 1986

Month	Value Stolen	Value Recovered	% Recovered
January .....	\$ 12,031,947	\$ 3,333,574	27.71
February .....	\$ 11,728,216	\$ 3,564,408	30.39
March .....	\$ 12,206,063	\$ 3,736,168	30.61
April .....	\$ 11,418,173	\$ 3,352,151	29.36
May .....	\$ 12,379,527	\$ 3,925,289	31.71
June .....	\$ 12,899,423	\$ 3,980,913	30.86
July .....	\$ 14,611,419	\$ 4,161,919	28.48
August .....	\$ 14,327,391	\$ 4,244,310	29.62
September .....	\$ 14,238,718	\$ 4,488,931	31.53
October .....	\$ 13,704,562	\$ 4,136,792	30.19
November .....	\$ 12,524,328	\$ 4,367,312	30.07
December .....	\$ 14,488,995	\$ 3,686,129	25.44
Total	\$ 158,558,762	\$ 46,977,896	29.63
Monthly Average .....	\$ 13,213,230	\$ 3,914,825	29.63

## VALUE OF PROPERTY STOLEN AND RECOVERED BY TYPE 1986

Type of Property	Value Stolen	Value Recovered	% Recovered
Currency .....	\$ 10,865,810	\$ 861,653	7.93
Jewelry .....	\$ 17,102,106	\$ 1,462,073	8.55
Clothing & Furs .....	\$ 3,556,341	\$ 463,660	13.04
Motor Vehicles .....	\$ 55,866,894	\$ 35,928,419	64.31
Office Equipment .....	\$ 2,485,960	\$ 327,768	13.19
TV's, Radios, Cameras, etc. ....	\$ 19,881,433	\$ 1,609,739	8.10
Firearms .....	\$ 4,337,416	\$ 540,993	12.47
Household Goods .....	\$ 6,402,323	\$ 512,768	8.01
Consumable Goods .....	\$ 1,567,435	\$ 181,064	11.55
Livestock .....	\$ 271,899	\$ 142,579	52.44
Miscellaneous .....	\$ 36,221,145	\$ 4,947,180	13.66
Total .....	\$ 158,558,762	\$ 46,977,896	29.63

# STATE OF NORTH CAROLINA

## MONTHLY VALUE OF PROPERTY STOLEN BY TYPE — 1986

TYPE OF PROPERTY	JANUARY	FEBRUARY	MARCH

Weapon	1985	1986	% Change
Firearm	118	143	+21.2
Knife, Cutting Instrument	86	62	-27.9
Other Dangerous Weapon	168	210	+25.0
Hands, Fist, Feet, Etc.	1,714	2,009	+17.2

### INJURIES TO LAW ENFORCEMENT OFFICERS

Injury	1985	1986	% Change
Injuries	299	318	+ 6.3
No Injuries	1,787	2,106	+17.6

### CLEARANCE IN ASSAULTS ON LAW ENFORCEMENT OFFICERS

	Number Assaulted	Number Cleared	Percent Cleared
1985	2,086	2,013	96.5
1986	2,424	2,342	96.6

# **SECTION SEVEN**

## **UNIFORM CRIME REPORTING SUMMARY**

# DISTRIBUTION AND CLEARANCE RATES FOR INDEX OFFENSES 1985 - 1986

The percentage of crimes cleared by arrest is obtainable by dividing the number of offenses cleared by the number of offenses known and multiplying the resultant by 100 as:

$$\frac{50 \text{ (robberies cleared)}}{153 \text{ (robberies known)}} \times 100 = 32.67 \text{ percent cleared.}$$

The table below sets forth the distribution of each index crime reported as well as the number and percentage cleared by arrest or exceptional means in 1985 and 1986.

OFFENSE	1985		1986		1985		1986	
	Number of Offenses	Percent Distribution	Number Cleared	Percent Cleared	Number of Offenses	Percent Distribution	Number Cleared	Percent Cleared
Murder	504	0.1	451	89.5	504	0.2	440	87.3
Rape	1,450	0.1	922	63.6	1,635	0.6	941	57.6
Robbery	4,783	1.9	1,690	35.3	5,435	2.0	1,990	36.6
Agg. Assault	18,773	7.5	13,985	74.5	21,694	8.1	15,211	70.1
Burglary	69,872	27.9	13,155	18.8	75,364	28.3	13,404	17.8
Larceny	142,948	57.2	30,204	21.1	148,764	55.9	31,601	21.2
MV Theft	11,635	4.7	3,744	32.2	12,842	4.8	4,057	31.6
Violent	25,510	10.2	17,048	66.8	29,268	11.0	18,582	63.5
Property	224,455	89.8	47,103	21.0	236,970	89.0	49,062	20.7
Total	249,965	100.0	64,151	25.7	266,238	100.0	67,644	25.4

## PERCENT OF INDEX OFFENSES CLEARED 1985 - 1986

## CRIME INDEX ARRESTS AND RATES PER 100,000 POPULATION 1985 vs. 1986

The information below reflects the number of arrests made for the commission of an index crime, the percent change in the number made, and the rate of arrest per 100,000 population for 1985 and 1986.

	1985	1986	85/86	1985 <sup>1</sup>	1986 <sup>2</sup>
CATEGORY	Number of Arrests	Number of Arrests	% Change	Arrest Rate	Arrest Rate
Murder	477	492	+3.1	8.0	8.1
Rape	725	760	+4.8	12.2	12.5
Robbery	1,699	1,720	+1.2	28.6	28.4
Aggravated Assault	12,585	14,087	+11.9	211.6	232.6
Burglary	12,369	12,712	+2.8	208.0	209.9
Larceny	28,413	28,727	+1.1	477.8	474.3
MV Theft	2,069	2,135	+3.2	34.8	35.3
Violent	15,486	17,059	+10.2	260.4	281.7
Property	42,851	43,574	+1.7	720.6	719.5
<b>Total</b>	<b>58,337</b>	<b>60,633</b>	<b>+3.9</b>	<b>981.0</b>	<b>1001.1</b>

<sup>1</sup>Estimated population coverage was 5,946,534 in 1985.

<sup>2</sup>Estimated population coverage was 6,056,485 in 1986.

## VALUE OF PROPERTY STOLEN AND RECOVERED — 1985 vs. 1986

The information below reflects the amount of property stolen and recovered during 1985 and 1986 as well as the value stolen for each offense category.

	1985	1986
Value of Property Stolen .....	\$ 143,011,321	\$ 158,553,620
Value of Property Recovered .....	\$ 42,981,841	\$ 46,818,096
Net Loss .....	\$ 100,029,480	\$ 111,735,524
Percent Recovered .....	30.05%	29.53%
Average Stolen Monthly .....	\$ 11,917,610	\$ 13,212,802
Average Recovered Monthly .....	\$ 3,581,820	\$ 3,901,508

### Value Stolen by Offense

Murder .....	\$ 17,520	\$ 16,793
Rape .....	\$ 10,814	\$ 24,717
Robbery .....	\$ 2,706,371	\$ 2,972,354
Aggravated Assault .....	*	*
Burglary .....	\$ 47,308,857	\$ 52,946,285
Larceny .....	\$ 45,764,802	\$ 48,387,515
Motor Vehicle Theft .....	\$ 47,203,113	\$ 54,214,559

\*Not Applicable

Total dollar amounts will not equal due to rounding.

# HISTORY OF CONTRIBUTOR PARTICIPATION

## COMPARATIVE CONTRIBUTOR HISTORY

The table below reflects by month the total number of law enforcement agencies that participated in the N.C. UCR Program during the last five years.

Month	1982	1983	1984	1985	1986
January	408	398	401	390	391
February	407	400	399	392	392
March	406	392	401	388	392
April	410	396	398	386	388
May	411	392	393	384	384
June	407	396	393	383	385
July	402	393	394	383	390
August	401	387	384	380	389
September	398	385	386	377	387
October	397	382	387	371	384
November	394	377	383	364	379
December	391	372	383	346	381
Average	402	389	391	378	386

## POPULATION COVERAGE

The table below reflects by month the percent of total N.C. population covered by those law enforcement agencies which have participated in the N.C. UCR Program during the last five years.

Month	1982	1983	1984	1985	1986
January	98.4	98.0	97.8	97.0	96.1
February	98.4	98.0	97.9	97.1	96.1
March	98.2	97.5	97.9	96.6	95.8
April	98.0	97.5	97.9	96.6	95.5
May	98.1	97.5	97.3	96.1	94.8
June	97.9	97.5	97.2	96.3	95.6
July	97.8	97.4	97.1	96.4	96.0
August	97.7	97.2	96.9	96.2	96.1
September	97.7	97.1	96.9	93.1	96.1
October	97.3	96.9	97.0	93.4	95.8
November	97.2	96.1	96.9	92.8	95.1
December	95.5	95.7	96.9	87.3	95.5
Average	97.8	97.2	97.3	94.9	95.7

**APPENDIX  
GLOSSARY OF TERMS  
AND  
ABBREVIATIONS**

## GLOSSARY OF TERMS AND ABBREVIATIONS

### TERMS:

**ADULT** - For Uniform Crime Reporting (UCR) purposes, a person 18 years of age or more. (N.C. criminal statutes define an adult as a person 16 years of age or more).

**ARREST RATE** - The number of arrests reported for each unit of population (per 100,000 people in this publication).

**CLASSIFYING** - Determining the correct UCR Part 1 or Part 2 offense category based on the facts contained in the police investigation report.

**CLEARANCE RATE** - The percentage of offenses cleared obtained by dividing the number of clearances made in any particular offense category by the number of offenses reported in that same category.

**CLEARED BY ARREST** - For UCR purposes, an offense is considered cleared (solved) by arrest when at least one person involved in the commission of the offense is 1) arrested, 2) charged with the commission of the offense, and 3) turned over for prosecution.

**CLEARED BY EXCEPTIONAL MEANS** - For UCR purposes, an offense is considered exceptionally cleared (solved) in those instances in which police have 1) definitely established the identity of the offender, 2) enough information to support an arrest, charge, and turning over to the court for prosecution, 3) in their knowledge the exact location of the offender so that he could be taken into custody, and yet 4) some element beyond their control precludes the placing of formal charges against the offender.

**CRIME FACTOR** - Any condition which may affect the amount and type of crime that occurs in a geographical area.

**CRIME INDEX** - The sum total of seven major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. Crime classification presently used in the index are: 1) murder, 2) forcible rape, 3) robbery, 4) aggravated assault, 5) burglary, 6) larceny, and 7) motor vehicle theft. NOTE that although arson is considered an index crime, the number of these offenses reported does not now constitute part of the crime index in North Carolina.

**CRIME PROJECTION** - The act of estimating the number of offenses that will be reported (or arrests made) during some future period of time through a systematic presentation of intersecting coordinate lines.

**CRIME RATE** - The number of index offenses (less arson ) reported for each unit of population (per 100,000 people in this publication).

**HIERARCHY RULE** - A standard UCR scoring practice in which only the most serious offense (as determined by the established index crime order) is counted in a multiple offense situation. For exceptions to this rule see the section in this publication entitled **Considerations for Interpretation**.

**HISPANIC** - A UCR ethnic category referring to those people of Spanish origin.

**HOTEL RULE** - A standard UCR scoring practice which limits to one the number of burglaries which can be counted when more than one room is entered for the purpose of committing a felony or theft within a structure generally intended to house transients.

**INCIDENT BASE REPORTING** - A less restrictive and more expansive method of collecting crime data (as opposed to Summary Reporting) in which all the analytical elements associated with an offense or arrest are compiled by a central collection agency on an incident by incident basis.

**INDEX CRIME** - Any one of eight major offenses used to measure the extent, fluctuation, and distribution of crime in a given geographical area. The eight index crimes are: 1) murder, 2) forcible rape, 3) robbery, 4) aggravated assault, 5) burglary, 6) larceny, 7) motor vehicle theft, and 8) arson.

**JUSTIFIABLE HOMICIDE** - The killing of a felon (while he is in the act of committing a felony) by a private citizen or police officer in the line of duty. Justifiable homicides are unfounded murders and are, therefore, not counted as part of the sum total of murders reported in the crime index.

**JUVENILE** - For UCR purposes, a person under the age of 18. (N.C. criminal statutes define a juvenile as a person under the age of 16).

**NON-HISPANIC** - A UCR ethnic category referring to those people not of Spanish origin.

**NON-VIOLENT CRIME** - See definition of Property Crime.

**PART 1 OFFENSES** - The first of two main groupings of UCR crime classifications consisting of the eight index crimes plus manslaughter by negligence. Part 1 offenses are by their very nature generally more serious and/or occur more frequently than the Part 2 offenses.

**PART 2 OFFENSES** - The second of two main UCR groupings of crime classifications consisting of all other crime categories not already designated as Part 1 excluding minor traffic violations. Part 2 offenses are generally less serious in nature and/or occur less frequently than the Part 1 offenses. With the exception of simple assault, monthly tabulation of Part 2 offenses is limited to arrest information only in the Summary Reporting System.

**POLICE EMPLOYEE RATE** - The number of full-time sworn law enforcement officers employed for each unit of population. Local rates may be obtained by dividing 1,000 (for rate per 1,000 people) by the population of the city or county jurisdiction and multiplying this factor by the number of full-time sworn.

**PROPERTY CRIME** - Any one or the sum total (less arson) of the following offenses: 1) burglary, 2) larceny, 3) motor vehicle theft, and 4) arson.

**SCORING** - Counting the number of offenses committed after the police investigation report has been classified. (For a discussion of UCR scoring rules and procedures, see the section in this publication entitled **Considerations for Interpretation.**)

**STRUCTURE** - For UCR purposes, generally any enclosed area intended for permanent use or occupation. A "structure" is considered to include the following, but not limited to: a dwelling house, apartment, out buildings, public buildings, offices, factories, etc.

**SUMMARY REPORTING** - A method of collecting crime data adopted for national reporting purposes in which a limited amount of analytical data associated with an offense or arrest is compiled by a central collection agency from summary reports completed by each contributing agency.

**UNFOUNDED OFFENSE** - A record of complaint which is found to be false or baseless after police investigation. The number of these complaints received are not included in the actual number of offenses reported used in the tabulation of the crime index, rate, etc.

**VIOLENT CRIME** - Any one or the sum total of the following offenses: 1) murder, 2) forcible rape, 3) robbery, and 4) aggravated assault.

## **ABBREVIATIONS:**

**Al. Nat. (or Alask, Nat.)** — Alaskan Native (a race designation).

**Am. Ind.** - American Indian (a race designation).

**As. (or Asi.)** - Asian (a race designation).

**C** - Covered by another agency for Uniform Crime Reporting purposes.

**DNP** - Did not participate in the Uniform Crime Reporting Program (for whatever year indicated).

**FBI** - Federal Bureau of Investigation, a division of the U.S. Department of Justice and administrators of the National Uniform Crime Reporting Program.

**His (or Hisp)** - Hispanic (an ethnic designation).

**IACP** - International Association of Chiefs of Police.

**NA** - Not applicable. Generally used whenever a reasonable crime rate or percent change could not be calculated.

**N-His (or N-Hisp)** - Non-Hispanic (an ethnic designation).

**NSA** - National Sheriff's Association.

**P.I. (or Pac. Isl.)** - Pacific Islander (a race designation).

**DCI** - Division of Criminal Information a division of the N.C. State Bureau of Investigation and administrators of the N.C. Uniform Crime Reporting Program.

**UCR** - Uniform Crime Reporting.
